

Practice Management, Reimagined

Operational coordination. Business efficiency. Staff productivity. Revenue execution.

Running a modern practice often means:

Missed appointments, scheduling chaos, and lost revenue

Manual workflows that eat up staff time and drive burnout

Billing errors and slow collections

Compliance risks that put your practice at stake

The Solution: Smarter Practice Management

CERTIFY Health centralizes and automates the operational engine of your practice — scheduling, payments, workflows, and reporting — so your team can focus on care, not paperwork.

Key Capabilities

Smart Scheduling

Recurring appointments, automated reminders, and waitlist backfill reduce no-shows and keep calendars full.

Workflow Automation

Assign intake, check-in, and follow-ups to the right staff for smoother handoffs.

Payments Made Simple

Text-to-Pay, Autopay, and mobile-friendly billing options accelerate collections.

Campaigns & Outreach

Run recalls, alerts, and reminders by specialty or location to drive patient volume.

Centralized Admin View

Calendar sync + provider scheduling give admins a clear command center.

Actionable Reporting

Monitor cancellations, check-in trends, and revenue flow in real time.

Outcomes That Matter

30%

Fewer No-Shows with reminders + waitlist auto-fill

2-3

Hours Saved Daily per staff member via workflow automation

40%

Increase in Collections with self-service payments

Proven ROI: Oscar Health achieved **29%** annual cost savings (**\$733K**)

Why CERTIFY Health?

- ✓ Trusted by **650+** healthcare practices nationwide
